Providing Care with Passion

COMPANY PROFILE

1st Edmonds AFH is a dedicated home healthcare service provider committed to delivering personalized care services that promote client independence and dignity. We have established ourselves as a compassionate care provider that prioritizes the unique needs of each individual client.

At 1st Edmonds AFH, we understand that every client has different needs, abilities, and preferences. Our care-giving philosophy centers around tailoring our services to fit these individual requirements, rather than offering one-size-fits-all solutions. This client-centered approach is reflected in our commitment to providing appropriate training and skills development for our staff members.

Our vision guides us toward becoming the most trusted name in home health care, delivering services with genuine passion while ensuring each client maintains their independence. This aspiration shapes every decision we make and every interaction we have.

Our balanced approach of professional expertise and genuine human connection continues to transform the home health care experience for our clients.

MESSAGE FROM CEO

"Our clients feelings and needs are important and we take into consideration every step of the way to make sure we understand how best to serve them".

Abdoullie Lowe
CEO & Provider
